SIVIS AM SERVICES

Your SAP employees don't know what to do first because of all the work they have to do? Our specialists support them in their daily work. Whether creating users in SAP or assigning authorizations, we do it for you and relieve your employees.

Find out more about our detailed service catalog for SAP user and SAP authorization management. All this for a fixed monthly fee and as a professional supplement to your internal team.

SIVIS QUICK CHECKS

COMPLIANCE QUICK CHECK

We check your SAP authorization concept quickly and comprehensively and uncover weak points in the system. We supply you with concrete recommendations for action and thus protect your company from unintentional access to your sensitive SAP data.

CLOUD QUICK CHECK

Learn what efforts can be expected with the implementation of the SIVIS Cloud Connector. You receive an accurate time and cost estimation. This reduces the implementation effort of the SIVIS Cloud Connector.

ROLE REDUCING QUICK CHECK

We check your outdated SAP authorization concept for unused roles and authorizations. You receive concrete recommendations for action for your sustainable authorization concept.

S/4HANA QUICK CHECK

We check which changes are necessary in your SAP authorization concept to make it compatible for S/4HANA. The result of the check are concrete recommendations for the optimal migration of your authorization concept, as well as a cost estimation.

ADVANTAGES AM SERVICES

- Transparent and calculable IT costs
- Relief for IT employees
- No downtime or delay of productive projects due to resource shortage
- No need to ensure on-call service
- Use of external know-how for own IT

ADVANTAGES QUICK CHECKS

- More security for your SAP system with the Compliance Quick Check
- Concrete recommendations for action
- Planning capability through precise cost estimations, for example for the migration with the S/4HANA Quick Check
- Analysis through experienced SAP experts

YOUR KEY TO SUCCESS

The SIVIS Services complement the SIVIS solutions and enable you to get the full potential out of your SAP system.
